***Executive Seminar of Hong Kong AR21 Manufacturing
System Standard for Civil Aviation Components
Manufacturing and Maintenance Industry***

Date: 2008.02.20 (Wednesday)
Time: 9:00 am to 12:00 noon
Venue: Classroom 1019, HKPC Building
Language: Cantonese
Fee: Free

The airworthiness is a very important issue for the aviation industry. For all aircrafts registered in the Hong Kong Civil Aviation Department, they need to strictly follow the HKAR-21 standard to maintain the airworthiness. HKAR-21 regulates the aircraft certifications, certification of aircraft changes, aircraft productions, component design, repair and maintenance, etc. All the services and productions should follow and comply with the HKAR-21 and the relevant technical standards and requirements.

For all the aircrafts registered in the Hong Kong Civil Aviation Department, all the components are governed by the HKAR-21 including the parts manufacturers approval, materials, parts, process and appliances approval, manufacturing factory and its quality management system. For the aircraft repairing industry, the service capability, repair design and its approval, repair

parts productions, embodiment, limitations, unrepaired damages, records and instructions are also standardized in HKAR-21.

The seminar would provide participants with the overview of Hong Kong Parts Manufacturing Approval (HPMA) including the following: What is HPMA, Use of HPMA in HK & Foreign Registered Aircraft, Ways of obtain HPMA, Use of HPMA in repairs and Acceptance of HPMA by other Civil Aviation Authorities.

Participants who attend the seminar will acquire knowledge of the aviation industry related standards and regulations. The acquired knowledge can be applied to their organisation's capability in aviation product design, manufacturing, repair design and maintenance quality, etc., and the enhanced organisation will obtain the related compliances and approvals more efficiently.

Enrolment Form

[For HKAIA member, Please fax to 2788 5543 for enrolment on or before 11 Feb, 2008]

I will attend the "Executive Seminar of Hong Kong AR21 Manufacturing System Standard for Civil Aviation Components Manufacturing and Maintenance Industry" on 20th Feb, 2008.
