

## A questionnaire regarding the career prospects in Aircraft Discipline of HKIE

The Aircraft Discipline is a unique entry for qualifying professional aircraft engineers and technologists in HKIE. As you may know, Aircraft Discipline is a new established discipline in 2009 and now aims at recruiting founding associate member. In the long run, Discipline will provide formal training to those who want to go for corporate member. The purpose of this questionnaire intends to collect views from engineers about the career prospects they expected from Aircraft discipline. The results of this questionnaire can help the discipline to plan for future direction and to provide better training to its member.

Please tick or provide the answer(s) in the brackets.

### Part A

1. What type of sector listed below most relevantly describes the business of your organization?  

<input type="checkbox"/>	a. Aviation industry	<input type="checkbox"/>	b. Transportation industry
<input type="checkbox"/>	c. Electrical appliance manufacturing	<input type="checkbox"/>	d. Consulting business
<input type="checkbox"/>	e. Electronics related manufacturing	<input type="checkbox"/>	f. Government Department
<input type="checkbox"/>	g. Metal industry	<input type="checkbox"/>	h. Education and Training
<input type="checkbox"/>	i. Design firm	<input type="checkbox"/>	j. Non-government organization (NGO)
<input type="checkbox"/>	k. Plastic products	<input type="checkbox"/>	l. Public Utility organization
<input type="checkbox"/>	m. Tooling industry	<input type="checkbox"/>	n. Others _____
2. Are you currently an associate/corporate member of HKIE?  

<input type="checkbox"/>	a. Yes	<input type="checkbox"/>	b. No
--------------------------	--------	--------------------------	-------
